Dupuis has been considered to be one of Germany's leading investment managers since 2005, with an average of EUR 400-500 million in assets under management and presently standing at almost EUR 1 bn in AuM.

The founding philosophy of the business is a) to be dedicated to applying hands-on asset management, b) have a geographic focus on Berlin, c) to invest into different types of direct Real Estate (while having a focus on residential) to provide above market risk-adjusted returns for mid- to long-term property investors and d) to build long-term partnerships with our stakeholders.

We strive to combine an institutional grade in-house approach with the dynamics of an management-owned investment boutique.

Through its entity Deutsche Asset One, DUPUIS provides REIM services for institutional clients for residential investments in Germany.

DUPUIS is one of the leading real estate investment and asset management companies in Germany.
